About Us

- Mass Visions is the specialists in active and Interactive display solutions, We have solutions for any of your display requirements, either for an off the shelf display or a system that can be customized for your specific requirements. We work with you hand in hand and strategize the best possible production and provide the best support services to manage your events.
- In this new era, displays are becoming more and more common for almost all the events. We experience users are very sensitive to interactive knowledge and each target audience needs a different approach both for hardware and the technology.

Our Goals

- The Vision of our company is to become the most trusted name in the event rentals specialized with display solutions for the growth of our precious clients. Our imagination is to create impact with unique display systems with a focus on delivering the intended communications of all the projects while building long term relationships with our clients.
- With our expertise, we focus to deliver top notch cost effective event and digital display services to make our clients business stand out in the Industry. Our goal is to deliver futuristic solutions that enable small, medium and large businesses to evolve in their markets, make an impact, increase productivity and generate high revenues.

Our Services

Seamless Video Wall

Video Wall is a special multi-monitor display system consisting of several monitors, TV sets tiled or overlapped together to create one wide frame. Typical these display technologies include LCD panels, LED arrays with direct vision capabilities designed with narrow bezels to minimize the gap between active display areas.

Contact us if you require any video walls in the desired dimensions, starting from 2x2, 2x3, 3x3 up to 4x4 matrix for your event, product presentation or exhibition booth. We have the largest and wide range of inventories in the industry. These systems can be picked up at our warehouse for rentals or you can choose to have us program the inventory with your content, presentations or advert materials to display in the required dimensions, and get this installed in respective exhibition booth or venue in support with your stall fabricators or the event production team.

Professional Display Panels

Professional displays at its core are just basic: displays and information. But it does have infinite possibilities. These panels can help get guests and exhibitors more actively engage, offer updates and improve social media participation and audience involvement within an exhibition or trade show. Using our state-of-the-art products salespeople can use these visual tools to communicate a decisive message to customers that explain what they can offer. By providing guests with a vibrant, highly-tech display, ideas begin to sell themselves even before an introduction is made!

We enjoy the largest range of Commercial display panels on hire. Choose from a variety of panels in different displays sizes, formats and resolutions. Starting from 22" to 86" panels, Our Commercial displays have been manufactured by world class brands like Samsung, LG, Panasonic etc , with expanded input panels with a wider variety of inputs like VGA, DVI, Display port, HDMI which can also include video loop out.

Touch Screen Displays

Interactive touch screen displays have a unique ability to attract anyone. Digital experiences on a touchscreen can be a talking point of an event which can create audience engagement through exceptional content, interactive quizzes, games, augmented reality applications which can surely draw a crowd for the next plan of action. Our rental systems doesn't require any keyboard, thus saving space and reduced complexity for the end user. All of our touch displays are designed for public environments and our latest touch sensors are proven and tested to perform flawlessly.

Wide range of Multitouch Displays. Choose from a variety of touch screen displays in different sizes, formats and resolutions. Starting from 22" to 75" touchscreen, ranging from single touch, dual touch, 10 multitouch display and even up to 20 multi touch display systems are available with us on hire for any type of event, conference and exhibitions across India.

4K Ultra Smart Displays

Mass Visions has a range of cutting edge Samsung, LG , Panasonic 4K / UHD displays with complete floor stand and mounting brackets with hardwares required for complete setup. Our Displays are a great option with a elegant visibility with neat finishing's to display your content in rooms with high ambient light or wherever the projection or LED screen is not practical solution.

We have a wide range of 4K display from 40" to 86" panels on rentals, We have the inventory in Bulk quantity which will suit any kind of event all occasions like corporate events, product launches, meetings, exhibitions, conference, party, classroom activities or even permanent fixed installations. All of our 4K displays are designed for public environments and the branded inventory in our warehouse are proven and tested to perform flawlessly

Digital Signage

Digital signage is the best way to get that extra edge of engagement above the event itself. Whether it's through social media wall, sharing images from exhibitors and trade show partners, or using the screen to facilitate a gamification or competition element of an event. Digital Signage can make a major impact on those involved in the key events and communication area of any business. We naturally turn towards screens to seek information, to know the highlights, view photos and valuable content those are very crucial.

Wide range of Digital signage displays are available with for corporate and event rentals, starting from 22" to 55" panel, ranging from TFT, LCD, LED and even standee kiosks which are very flexible to use at multidimensional events .Our signage display systems are very flexible and can be used in various shapes, sizes with landscape or portrait orientation , also can be customized further for different mounting structures suitable for all type of diverse events starting from a small promotional activity, advertising campaign, conference to large sports event.
